Qdos Event Hire is an exciting new company established to provide high quality temporary accommodation, welfare and toilet facilities with superior service levels to the outdoor event industry. Qdos is the latest addition to the Newship Group, a well-established privately-owned group of manufacturing, distribution and hire companies.

Qdos has already successfully delivered units to many outdoor events such as the Farnborough Air Show, V Festival, Reading Festival and the Ryder Cup.

With enthusiasm and expertise
Qdos deliver quality in service
and product at every event.

Superior Experience and Service

Although the company is new the Qdos management team has over 20 years experience in the event industry with a reputation for delivering unparalleled levels of service to its clients.

Qdos aims to build close and long-term partnerships by delivering a 'one stop shop' service for all its clients temporary accommodation needs that delights and provides best value to everyone. These partnerships generate greater efficiency, time and cost savings.

The Qdos team has the hire expertise and understanding to guarantee the best advice on product requirements. We ensure the smooth delivery of accommodation for your event, which will be rapidly installed and collected, even in the most restrictive locations and always with exceptional customer service.

Innovation in Accommodation

The Qdos accommodation range are all brand new products. We have used the opportunity when purchasing our products to take time to design and develop them to meet the needs of our clients and end users.

Standard Qdos product features include:

- ❑ Disabled access doors
- ❑ Large picture windows allowing maximum light with window blinds for privacy
- ❑ Plastic coated steel interior to allow magnetic fixings to be used and reduce internal damage
- ❑ Flexible internal partition system that enables the unit to have bespoke layouts for each event
- ❑ A number of products are pre-prepared for temporary air conditioning
- ❑ Low level lifting points to reduce working at height risks
- ❑ No polymeric foam in the insulation therefore improving the product's environmental footprint
