

Goodwood Revival

As part of its ongoing contract with the Goodwood Group of Companies Qdos Event Hire provided a range of temporary accommodation, storage containers, toilets and showers to support the Goodwood Revival this September.

The action packed weekend of historic motor racing, period theatre and good music has been held at the Goodwood Motor Circuit since 1998.

Qdos supplied:

92 containers providing safe storage areas throughout the build, event and breakdown period.

57 cabins were turned into offices, dressing rooms and ticket offices giving temporary comfortable and contemporary accommodation.

83 robust and hygienic toilet units supplied in a combination of male and female, disabled and baby changing facilities, including urinals, with and without water delivered reliable and safe facilities for all event goers.

3 disabled wet rooms and 37 unisex shower pods which provided private and spacious changing and drying space as well as all the standard wash room facilities.

All of the above ensured that event goers enjoyed a great experience and added to the amazing atmosphere of this unique spectacular.

“We have been very happy with Qdos’s performance in their first year supplying Cabins, Stores and Toilets to the Goodwood Revival, despite a tough build in bad weather they still delivered on time with the help of their attentive on site project manager. We look forward to working with them again in 2016.”

Rebecca Lane, event planner at Goodwood Revival
