

Rugby World Cup, England 2015

England played host to the Rugby World Cup in 2015, the six week tournament took place across 13 match venues from 18th September – 31st October. With 48 Games played in total it welcomed almost 2.5 million spectators from around the globe and worldwide TV audience of 120 million.

Qdos Event Hire was delighted to support The Arena Group with the tournament at multiple venues up and down the country. The provided a vast range of cabins, ticket offices, jackleg toilets, luxury vacuum toilet trailers, disabled facilities and single plastic toilets for use in both spectator areas and broadcast compounds.

Their contemporary style cabins were used by organisers, suppliers and broadcasters for a variety of uses including staff offices and broadcast suites for commentators.

Jackleg toilet blocks and luxury vacuum toilet trailers were supplied in a variety of male, female, mixed and disabled for use by spectators and broadcaster offering clean, accessible and modern facilities for all.

"We were delighted with the support that we received from Qdos Event Hire throughout the Rugby World Cup 2015. With a project of this scale, inevitably there are numerous sites and ever changing requirements, the Qdos team were flexible and approachable at all times. I very much look forward to working with them again in the future."
Nathan Pankhurst, Arena Group
