

## Traitors

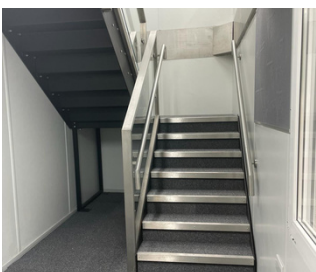

The hugely popular BBC programme Traitors is produced by Studio Lambert. More than 8 million people tuned into the series 2 final when it was broadcast in January 2024. Since the show's inception in 2022, Qdos Event Hire has been supplying cabins, welfare facilities, stores and modular buildings to support the crew during filming.

Filming takes place at Ardross Castle which is in the Scottish Highlands and close to Inverness. Given its remote location and history our logistics team meticulously plans the delivery and installation of our kit ensuring that we plan ahead accordingly. There is a particularly tight gateway that makes it all the more challenging.

For series two which was filmed in latter part of 2023, we installed a bespoke modular building for the production team that was created using 12 of our 20' x 8' CTX units. An interior staircase was installed which gave the facility a more permanent feel.

Additional kit installed included cabins and CTX units for use as offices by technical teams, caterers and security, an 8' x 8' guard house and storage containers in a variety of sizes to stores props and equipment. We also supplied three of our 24' x 9' mixed jackleg toilets which were serviced twice weekly during the two months the production team was on location.
